

Wooden and metal cupboards with or without doors are available from stock, please see the following pages for more styles and information, including how to buy.

System storage cupboards are versatile storage systems, with a variety of internal fitments available to tailor your storage exactly as you need it. Lateral filing rails, roll-out shelves and suspension filing rails are just some of the internal fitments available for your cupboard. There is a choice of metal or wooden cupboards with double or tambour doors which will accept the fitments.
